Pelco Products, Inc. Announces Open House November 4, 2011

Pelco Products, Inc. announces its Open House on November 4, 2011.

A strong supporter of the community and friend to commerce throughout the United States and the international community, Pelco Products, Inc. is celebrating its 26<sup>th</sup> year in business.

Founded in 1985 by Phil and Steve Parduhn, Pelco Products has increased its presence in the business world by becoming a leading supplier of traffic products. Holding over 43 patents, Pelco has become a true innovator in the traffic, utility and ornamental lightscaping and hardscaping industries.

“This Open House is a great way to welcome the community into our plant and show our neighbors our commitment to our core strengths – innovation, quality and service and how Pelco is a leader in Oklahoma business. We want to support other businesses and celebrate how far we’ve come in the last 26 years,” said Mike Gilliland, Marketing Manager for Pelco Products.

Originally focusing on the traffic industry, Pelco’s interests have grown to incorporate the utility and even campus and Main Street beautification. Pelco considers itself as a true friend to the community and the environment, pioneering many green initiatives and providing jobs and opportunities to its more than 150 employees in its Edmond facility alone.

Held from 3:30 to 7:00 p.m. this Friday, Pelco plans to highlight its past accomplishments and give guests a glimpse of its plans for the future.

Pelco Products, Inc. has been in business since 1985 and prides itself on new, innovative solutions for customers and their environments.
