

SE-2005-08

Improved Push Button

You Asked For It...And We Delivered

The SE-2005-08 pedestrian push button has been redesigned for maximum performance and durability. The SE-2005-08 incorporates the latest in technology, including a new, larger microswitch; an aerospace-designed bushing and a redesigned corrosion-resistant stainless steel plunger.

Features:

- Corrosion Resistant 2.18" Stainless Steel Plunger (now standard)
- Moisture Resistant, Non-Stick Peek Bushing for Longer Life in Extreme Temperatures
- New, Improved Microswitch for Even Better Performance
- Improved Stainless Steel Wave Return Spring
- Weather-Tight Neoprene O-Ring
- Lighter Quality Casting Process
- Available Adaptor for Mounting on Flat Surfaces
- Oxidation Preventing Conversion Coating
- Available in Your Choice of Colors
- ADA compliant
- Available with or without LED
