

Great Stellar Design, New Die-cast *Pelco's New & Improved* Astro-Brac Stellar

At Pelco, our engineers are always looking for ways to make our products easier to use, more convenient to install and more reliable. The Astro-Brac Stellar is all that and much more.

Here are just a few industry leading features of the New Astro-Brac Stellar:

1

All die-cast design for precise, secure alignment and superior corrosion resistance

3

Easy installation

4

Stainless steel bearing washer design eliminates need for a backup wrench on cable end

2

Redesigned cable clamp reduces hardware *plus* speeds installation

5

Compatible with Helping Hand tool for easier installation

The Pelco Astro-Brac Stellar: Making Installations Simpler

Other Great Features of the Astro-Brac Stellar:

- **Easier Installation:**
 - *Modified cable assembly: Threaded stud is captured in stainless steel bearing washer unable to turn while nut is torqued*
- **Less hardware: The newly designed cable clamps use less bolts each**
- **Compatible with Pelco's new Helping Hand tool**
- **An update to the already great Stellar design**
- **Nylon Lock Nut: Cable assembly utilizes a nylon lock nut making installation more secure and reduces chance for galling**

Part Number: AS-3009
